18-Calculation: **2009** — **age of birth** =

19-In the park, we can find:

- a) Common Grackle
- c) Ring-billed Gull
- d) American Robin
- e) American Crow

20-Frédéric Back was very committed to the environment.

His short film tells the story of a place where **nature was destroyed** and where a man helped its regeneration by planting trees. After several years, **the trees grew, and the animals and water returned.**

The story resembles that of parc Frédéric-Back. Nature was destroyed by the Miron quarry and then by the landfill. By planting trees and plants, we **are helping nature to return.** (Other variations accepted)
